

AAMIR AYOUB

WEB

DEVELOPER

1. As a web developer, I craft elegant and responsive user interfaces, ensuring seamless user experiences across various devices.

2. My proficiency in HTML, CSS, and PHP allows me to create dynamic and visually appealing websites that meet both aesthetic and functional requirements.

3. Leveraging frameworks like Bootstrap, I build interactive web applications that enhance user engagement and streamline data processing.

5. Proficient in SQL, I design and optimize database structures to efficiently store and retrieve data, ensuring seamless backend functionality for web applications.
